PERSONAL STATEMENT

Visually captivating, and emotionally uplifting. That is what I strive for in design. Growing up in Southern California, I was always surrounded by the ocean. The smell of crisp ocean breeze crashing on the shores will always be an experience I will never forget. Conceptual immersion is everything to me, particularly sight, touch, and smell. That is why my career goal is to go into retail space and lifestyle branding. My philosophy is that one must live the brand to feel the brand, but ultimately take away something of their own to cherish.
